Guidelines to the Completion of the National Wool Declaration

- ⊗ Determine the order of shearing **prior to** completing the NWD. This should ensure that:
  - ○ Mobs of a different Mulesing Status can be kept separate,
  - ○ Mobs with a higher Dark and Medullated Fibre risk are shorn last, and/or
  - ○ The wool from mobs with similar characteristics can be combined as required, especially; for example, oddment lines.
- ⊗ In the Mob Number column of the Classer's Specification, the **Woolclasser MUST list ALL Mob Numbers** used to make up each line of wool. This applies to both fleece and oddment lines.
